EXPERIENCE

46Labs Lo, Lahore — Frontend Developer

July 2022 - Present

Designed and developed scalable web applications using **React**, **Next.js**, and **JavaScript (ES6+)**.

Built backend services with **Node.js** and **Express**, supporting authentication, APIs, and file handling.

Integrated third-party APIs (Calendly, LoyaltyLion) to automate workflows.

Elastic Email, Poland — Frontend Developer

May 2025 - August 2025

Developed **Shopify embedded apps** using Remix & Polaris, including ScriptTag injection/removal.

Delivered responsive, performance-optimized UIs using **Tailwind CSS**.

Integrated REST APIs and handled secure data flow between frontend and backend.

Codingo, Lahore — MERN Stack Developer

Sep 2021 - June 2022

Implemented **real-time features** such as chat and call signaling using [Socket.IO](#).

Implemented CRUD systems, authentication flows, and database schemas.

Gained hands-on experience with deployment, and debugging production issues.

PickleTour LLC, Lahore — Associate React Developer

Sep 2020 - Sep 2021

Developed and maintained frontend features using **React.js** for a production web application.

Implemented state management using **Redux** for scalable and predictable application state.

Built responsive UI components using **Material-UI**

EDUCATION

Superior College — Bachelor's Degree

2016 - 2019

CGPA: 3.35
